

Tasks

iScout 2015

iSCOUT

This is how it works

To earn Credits you have to complete these Tasks. With those Credits, you can buy Questions which will give you Travel Points when you answer them right. The Team with the most Travel Points wins.

You can choose which Tasks you would like to do yourself. Only the Team-photo is mandatory.

Making clips and photo's

Big files are hard to upload. With the format of a smartphone-picture is nothing wrong, but make sure the DSLR is set to a lower resolution or quality.

Editing videos can be a lot of work. If you have a smartphone you can use the Vine app. Free for iPhone, Android and Windows. With this app you can easily make clips. The app will even upload them for you so you only have to hand in the link. Totally worth the effort!

Of course you are not allowed to use editing software like Photoshop, unless it is mentioned in the Task that it is allowed. Of course you can make a collage. Only submit files of which you own the rights.

Safety

When doing the Tasks make sure to watch out for you safety and those of other scouts or innocent bystanders. Safety above all!! Don't drive if you have had alcohol. The Team can decide which tasks will be executed or not, no one else has anything to say about this. Keep it fair and safe.

Group picture

You have to hand in: photo

Submit your group picture here. The picture should show at least your team members and one or more group Flags. You can go for a formal ceremonial picture, but something more creative is also appreciated!

Challenging Scout Techniques

Floating bed

You have to hand in: photo

How romantic: waking-up next to your loved one on a bed in a lake in the mountains. Sunrise, birds, everything. Got the picture?

Build that. A bed with two lovers floating in a lake, canal, ditch, sea or pool..

Lawn mower

You have to hand in: film

Lawn mowing is so much work. There are more efficient ways to do that. Get yourself a lawn mower and attach it to some kind of pole with a rope. Make sure the thing drives itself and film it. Something like this: <http://os01.iscoutgame.com/game-2015/task/grasmaaier.jpg>

Square donuts

You have to hand in: vine

Sometimes it's good to ask yourself why things are as they are. And sometimes you just have to try other options. Time for some out of the box thinking.

Bake yourself at least 5 square-shaped (real) donuts and create a nice Vine clip of the process and result. Bon appetit :)

Ties and scarfs

You have to hand in: photo

As a scout you wear a scarf. In some countries (like The Netherlands) groups have their own scarf. A lot of companies or clubs have their own tie. Collect 5 company-related ties on one photo.

(The Task makes more sense in Dutch, because the word for scarf and tie is the same)

Construction adhesive

You have to hand in: vine

In the category "nice-cool-awesome-I-HAVE-to-have-this": <http://os01.iscoutgame.com/game-2015/task/saus.jpg>

Get yourself two empty tubes of constructions adhesive and fill them with two sauces you like to put on your hamburger. Create a vine clip where you actually put the sauce on your hamburger the way you normally handle these adhesives (with a holder).

(Unsafe to eat it!)

Shower cabin

You have to hand in: photo

The more soap, the better. Fill your douche cabin with at least one meter of soap. Like this: <http://os01.iscoutgame.com/game-2015/task/shower.jpg>

A drone in your household

You have to hand in: vine

Drones are hip. But you are probably still a bit looking for useful applications. Luckily we thought of something for you. Fly your drone from the kitchen to your room, carrying a basket of snacks. You're lying lazy on the couch in your room, watching your favorite tv-show. Create a Vine of the flight.

Expression

Toast

You have to hand in: photo

Make a grilled cheese sandwich on a server (computer). If you happen to have a photo of this from previous edition of iScout, you can hand this one in by exception. Make sure, in that case, that we can recognize your team as makers of the photo.

Threatning letter

You have to hand in: photo

Write us a threatening letter spelled with cutout characters from papers and magazines. The letter includes at least a salutation, says us what to do and the consequence if we won't. Take a picture of the result on or with your flag. Create a collage if needed.

Vine-ception

You have to hand in: vine

Create a vine clip. Then, create another vine clip in which your first one plays an important role.

Get it? Do it :)

If not or need some inspiration:? Check this: <https://vine.co/v/htKi1djMQVd>

To whole setting of the clip is up to you. Pass on a box or your flag, but cycling through the clips is also an option. Hand-in your second clip only and make sure both clips show at least your group flag. Be creative and good luck!

Wall painting

You have to hand in: photo

Looking at your cellphone or game console, you might forget the world around you a bit. It would be great if people looked outside and explored a bit more. We would like to help to make this change a bit more easy.

Decorate the wall around a window with a sketch of a smartphone or game controller. Something like this: <http://os01.iscoutgame.com/game-2015/task/gameBoyWindow.jpg>

Identity

The Milkmaid by Vermeer

You have to hand in: photo

Photograph a modern interpretation of The Milkmaid by Vermeer. Create the right setting: window, table, the 'maid', the can, bread etc. Replace one of the main items with something modern and hand-in the photo of the result. The original: <https://www.rijksmuseum.nl/nl/collectie/SK-A-2344> and <http://os01.iscoutgame.com/game-2015/task/vermeer.jpg>

International

Virtual drive

You have to hand in: film

Inspired by the videoclip of 'Alwadameheten' by Kenji Minogue (<https://www.youtube.com/watch?v=LTVW1ad6KsA>): Shoot a nice clip with use of Google's Streetview. Drive over Broadway, New York. At Union Square, look outside the side window to view the market. The clip is shot from the perspective of the driver. So, the wheel, dashboard and door or side window are visible.

Outdoors

Supermarket basket

You have to hand in: photo

If you ever looked around in a city in the Netherlands, you'll find a lot of bikes with a (supermarket) basket attached to it. That's comfortable as you can easily transport some small stuff around. However, you still have to walk out of the supermarket with your arm filled with groceries.

Therefore, ride your bike with basket into the supermarket. Take a nice photo of you shopping some dish soap with your supermarket basket on your bike.

On expedition

You have to hand in: photo

A well-known fictional figure, explorer and Scout is Indiana Jones. Make a tribute to him with a photo, by going on a typical Indiana Jones expedition. Including a cave, lantern, tropical explorer hat, binoculars and cave paintings on the rocks.

Knot board 2.0

You have to hand in: photo

In a real Scout building we find at least a knot board.

Create such a knot board with at least ten real knots, but this time made from phone chargers, USB-cables, earphones, UTP and such. Beneath each knot, a sticker with its name is visible. The complete board is mounted to the wall.

Save and Healthy

Out of the window, differently

You have to hand in: film

Also this sixth edition, we ask you to throw something out of the window. But now a bit different. Do heavy objects fall faster than light objects? To test it, find yourself two windows at, let's say, a fourth floor (counting the American way). Throw simultaneously a heavy and a light object out of these windows and film it.

Be careful and clean up your mess afterwards. ;)

The answer: it depends. You can find this in your physics book or (more entertaining) have a look at this clip: http://youtu.be/AYz_K3mwq6A

Safety instructions

You have to hand in: film

As a World Traveler, you spend a lot of time on airplanes for sure. So, you've also watched numerous safety instructions by now. The lady in the clip below tries to do her best to make that part of the journey a bit more interesting, but we think that you can do even better!

Film your safety instructions and include at least: a person who demonstrates, a person who speaks, instructions about safety belts, smoking, the weather and annoying kids. Perform in a tram, train, bus or airplane (bonus for this last one).

<https://www.youtube.com/watch?v=07LFBydGjaM> - or search for 'Hilarious SWA Flight attendant'

Counting calories

You have to hand in: collage

If you're ever bored while having a meal, you might have checked the packages of your food. Ever noticed the amount of calories in some products?

These creatives from BuzzFeed made a nice clip about that:

<https://www.youtube.com/watch?v=rgaqwFPU7cc>

Create a collage of photos showing piles of food. Every photo should show (almost) exactly 2000 calories. Ingredients to include: chips, pasta, some pastries that go well with coffee, cans of energy drink, meat you eat with/on bread.

Sports and Games

Yellow/orange light

You have to hand in: photo

Take a picture of 12 scouts (recognizable) beneath a traffic light on yellow/orange.

Hallway swimming

You have to hand in: film

<https://www.youtube.com/watch?v=UhkO3RkCScs>

Clear, right? Find yourselves a slippery floor and good luck with your swim exercise with at least 5 people! :)

Maybe you can do some cleaning on forehand.

Create a short videoclip of it.

Bingo

You have to hand in: photo

At 21:00 CET we start a nice game of Bingo. Download your Bingo card here and play! We'll publish a link to the stream on Twitter with #iScout15 #LastMinute.

<http://os01.iscoutgame.com/game-2015/task/bingoCard-version-f8gf7dg98fd.pdf>

Yoghurt bucket

You have to hand in: vine

You probably know these 'buckets' filled with yoghurt including some sweet fruity stuff at the bottom. Of course you want to mix this stuff before you open the bucket.

In order to do that, find yourselves a paint mix machine. Like the ones used in the paint and hardware stores: <https://www.google.com/search?q=verfschudder&tbm=isch>

Hand in a Vine clip of the mixing yoghurt.

Cutlery

You have to hand in: photo

Get your cutlery and a few cans together as shown on this photo. Send us your photo of the result.

<http://os01.iscoutgame.com/game-2015/task/bestek.jpg>

Internet Explorer

You have to hand in: photo

Of course, you all use Chrome to play iScout. Hopefully you don't have to use IE in your daily life.

Get yourself at least 7 different toolbars for Internet Explorer and install them. The space on your screen that is left shows your team flag. Hand in a photo (no screenshot) of the monitor showing the browser.

Sorted by color

You have to hand in: photo

Sort at least 10 cars on color. Something like this: <http://os01.iscoutgame.com/game-2015/task/carColour1.jpg> and <http://os01.iscoutgame.com/game-2015/task/carColour2.jpg>.

Hand in a photo of the result and make sure there is enough light to reveal the color of the cars. So find a spot with enough street lights, a parking garage, working lights. Something like that.

There are at least 5 different colors involved.

The Mill wing

You have to hand in: vine

We're still at the beginning of 2015 and you probably ask yourself what the hype of this year is going to be. We would like to give it a shot. 'Mill wings' it is.

Check out: <https://www.youtube.com/watch?v=ZBvwHaejV2M&t=2m34s>

Create your own Mill Wing clip or Vine with at least 3 people.
