

Tasks

Street races

Organize a street race with 5 different rolling 'vehicles'. Race for about 100 meters. The race is started by a lady with her scarf, she wears her scout uniform. At the finish line a steward flags the vehicles down. One thing: the vehicles may not contain an engine that burn fuel. So think of a tricycle, unicycle, roller skates, a cart or a Tesla. Every type of vehicle can be used once. Make a film of max 1 minute.

You have to hand in a short video.

Mucky vans

Everyone knows the dirty vans that once were white. They are actually exactly what you need to be creative. Draw on one side of the van (right-, left- or backside) and use the whole width and height. Draw a famous building. We should be able to recognize it. Because the Eiffel tower is not broad enough, that kind of buildings are not sufficient. Take a picture with your creation.

Based on: <http://www.bbc.com/news/uk-england-essex-35945970>

You have to hand in a photo.

GPS_art

iScout is an active event! Time to share that activity with us :) Get out with your smartphone and the Strava running app to draw for us. Find an idea how that looks on <https://gpsdoodles.com/>. 'Draw' while you walk, bike or drive a flower for us., containing a stalk with two leaves and a flower with 5 petals. Something like this: <http://os01.iscoutgame.com/game-2017/likethis.jpg>. Click on the activity in the strava feed and send us a screenshot. Your group photo is your profile picture in Strava and your group name your profile name. Make sure this is correct.

You have to hand in a photo.

iScout Pancake

Bake with pancake mix the 'O' from the iScout logo. That can be hard, but a stiff mix and a funnel may help you. And the bigger you make it, the easier it will be ;) Make a picture of the result.

You have to hand in a photo.

ChairChallenge

Who is the beast in your team? <https://www.youtube.com/watch?v=5Vdm5EzL2wo> Do this trick! Naturally without touching the ground, that should be clear. Good luck! Hand in a short video.

You have to hand in a short video.

Living room

Make a living room in a trailer (the one you can put behind your own car). In the living room is at least a chair or sofa, a table, a coat rack with coat, a lamp and a table with dinnerware. Make a movie of 15 seconds in which the trailer is pulled by a car. Think about safety. There should be no person in the trailer and you can not drive on public roads.

You have to hand in a short video.

Bridge

Design and make a suspension bridge made of wood and rope. Nothing more than that. The span width must be at least three meters. Photograph the bridge with three team members standing on it. Inspiration: <http://os01.iscoutgame.com/game-2017/bridge.jpg>

You have to hand in a photo.

Orange juicer

At the time of the Golden Age it just may be that you had a ship full of oranges but no juicer. Then you had the shoot the orange with one of your cannons against the wall of your ship, and collect the juice dripping from the wall. That can be done differently: Build a juicer. Large, cumbersome, overly powerful. As long as it is not too simple. Some effectiveness would be nice. Of course the juice is collected. For example, create a kind of pile driver with poles and stamp the oranges. An orange-strawberry smoothie is also fine :-). Make a movie of up to 30 seconds of the press running. Be creative!

You have to hand in a short video.

Dishes

Doing the dishes is stupid. When a dishwasher is too expensive, there's a simple life hack. Take a photo of an empty and clean sink. Print this out and laminate it to make it waterproof. Then you put the dishes in the sink and place your laminated photo on it. Create a collage with two pictures: one of the sink with dishes to be cleaned and one with the laminated paper that hides the dishes.

You have to hand in a photo collage.

Scouting shirts

In many scouting camps or -events you get a t-shirt. Gather 10 of these shirts of various scouting camps and events. Make 10 people wear one and make cozy group-selfie with the shirts visible. PS. Don't you ever wear the shirts? Consider donating them.

You have to hand in a photo.

Pancake draft

We love pancakes and we hope you do too! Create a pancake mix tap or draft above the stove. So that the pancake mix can directly fall into the hot pan below. Baking pancakes without making a mess! :) Make a collage of pictures from the building process and of course the working result.

You have to hand in a photo collage.

Kumbaya my Lord

Go armed with at least 3 (self-made) instruments to a bar or other public place. Sing it with at least 10 pub-visitors (or other strangers) the song Kumbaya my Lord. At least one verse and chorus. Make a movie of up to 30 seconds.

You have to hand in a short video.

Reverse Graffiti

Graffiti on buildings and bridges is not something we like, but we'd like it if you leave some reverse graffiti. That is cleaning the sidewalk using a pressure washer in such a way that you leave a pattern. We would like the text "iScout" on a wall or sidewalk. So make a template of the text "iScout ", grab a pressure washer and start. Hand in a photo of the result. Een great example of reverse graffiti is something like this: <https://graffitinetwerk.nl/reverse-graffiti/>

You have to hand in a photo.

Foreign currency

Collect at least 5 banknotes whose value starts with a 1 from five different countries (euro is one country) and put it together on the picture. It should of course be legal tender / real money.

You have to hand in a photo.

Book face

Do you have shelves full of books at home or a local library that is open till late. Good! Create a bookface picture. That's a photo were you substitute you face by that of a cover of a book with a face on it. For examples: Google image search 'bookface'. Making such a picture can be quite hard. Especially if the photo on the cover isn't a natural size. In that case you can move the book in between your head and the camera, for example. Because it can be hard, you 'only' have to do 4 bookfaces, as a group picture. Don't forget your group flag! If you make it easier for yourselves, for example by using magazines or papers, you have to do 5. Tip: the extra weekend sections of papers can be a good source!

You have to hand in a photo.

Bollywood car

Check out this video: Make <http://www.dumpert.nl/mediabase/6870955/0d29258e/bollywood.html>

Make something like that, but with a homemade car instead of a bicycle. Make a movie of up to 20 seconds. In the video we see a self-made door. Behind the door the driver is pretending to drive the car. In the background trees (or something similar) pass by. To make it complete, there car radio plays a guilty pleasure.

You have to hand in a short video.

Mousetraps

Take 10 (or more) mousetraps. You must let the first go off, the rest should go off because the first has gone off. And make a movie of up to 20 seconds. In other words: something like this <http://9gag.com/gag/aM9BeLM>.

You have to hand in a short video.

Human tarantula

The task is simple: do what the three men in the film are doing, and "walk" at least 5 meters. Make a movie of up to 30 seconds. <https://www.youtube.com/watch?v=lbmeq7SCCz8>

You have to hand in a short video.

Phone book

Do you have somewhere 2 phone books? Preferably a bit thick ones. Fold the page at each other. Connect both books to a car. Then you are going to find out whether the cars can pull the books apart. According to the Mythbusters it can not, at least with cars. Pay attention to your safety and others safety! Film from a great distance, make sure there no one passes by and nothing can be damaged. Make it not too complex: 1 car can remain stationary while the other is slowly driving away. Make a movie of up to 20 to 30 seconds.

Inspiration: https://www.youtube.com/watch?v=AX_ICOjLCTo

You have to hand in a short video.

Bottle Flip XXL

The Bottle Flip is so 2016. That's why we go to the Bottle Flip XXL. Do you not know what a Bottle Flip is, check the movie. You are going to make a Bottle Flip with an oil drum. Hand in a movie of a only the successful Bottle Flip. We do not want to see all 214242 unsuccessful attempts. And this is a Bottle Flip

<https://www.youtube.com/watch?v=G9P2iUS2oFE>

You have to hand in a short video.

Bus shelter

Hard times for the bus shelter in the Netherlands. In more and more places they disappear. It is a shame. That's why you're going to make a bus shelter out of wooden poles, rope et cetera. Of course, the bus shelter is next to a real stop post (or next to one of the surviving bus shelters). Your bus shelter is of approximately the size of an ordinary bus shelter and has something of a roof. Put the result on the picture and make sure that the photo also shows the real bus stop or real bus shelter.

You have to hand in a photo.

Preservable

Rust on your car is sin. Therefore, you will wrap one of your own cars completely in clingfilm. Completely, don't forget a single spot. Make a photo collage of the result.

You have to hand in a photo collage.

Smartphones

Take 10 smartphones and set on each one a piece of the iScout logo as? wallpaper. When you put all those pieces together, you should get the whole iScout logo. Out of the 10 phones, at least three are vertical and three are horizontal. Good luck :) Provide a picture of the final result. The logo can be found on

<http://iscoutgame.com/nl/logoopjevlagkit>

You have to hand in a photo.

Old data

Collect in one picture the following items: ?Enough floppy disks to cover the maximum size of a photo you may upload to the iScout game site. Enough DVD's to cover all the data that will be uploaded to the game site this edition (15 GB). Enough CD's to cover all the data that will be uploaded to the game site this edition (15 GB). And just for the fun: add one LP record, two audio cassettes and two VHS tapes

You have to hand in a photo.

Out of the window

Back from never been gone. But this time a little different. With an experiment we are going to test what will fall faster: a normal product VS the light version (for example cola vs cola light). You can choose what product you are using yourself, but choosing something that will break / make mess is a lot more fun (for us at least). Drop the two products from the 3rd floor and film what will arrive at the bottom first.

Tip: if you do this task at the beginning of the evening it's still light outside and the Travel agents can see what you are doing better.

You have to hand in a short video.

Upside down flag hoisting

You go upside down flag hoisting. So: find a room with a high ceiling (stairwell, gym, reception room of a palace) and hang a flag post upside down with flag. Next to the flag post hangs a scout (in uniform) which hoist the flag (hoist the flag is now from top to bottom!). On the floor are at least five scouts giving a salute to the flag. Take a picture of the result.

You have to hand in a photo.

bus shelters

Next year will have iScout 10,000 participants. To achieve this there must be a bit of promotion made and where are you going to start tonight. Photoshop an iScout ad/poster together and print it out on bus-shelter-format (about 118.5 x 175 cm). In the ad is of course the iScout logo, a catchy slogan and a Task-photo that you have made earlier tonight. Hang your poster on a bus shelter (or your self made bus shelter, see an other Task). Take a picture of your poster at the bus shelter. On <http://iscoutgame.com/nl/logoopjevlagkit> find you iScout logos et cetera.

You have to hand in a photo.

Rotary dial

Know that old phone your grandmother used till a few years back? Those phones with a big rotating wheel to dial the number. You can still use them, although you probably connect them to your internet modem nowadays. If you do that, you can not dial a number, but you can answer an incoming call. Do this. Make a short film of about 10 seconds. The phone rings (clearly it is the phone). Answer it with an original sentence.

You have to hand in a short video.

Greetings from Mars

Space X is intended to send people to Mars in 2020. In preparation, we have already made some Travel questions about Mars. By those questions, the Google Maps map therefore is replaced by a map of Mars. That is why you are going to make a "Greetings from Mars" postcard. Create a Mars landscape using for example red cloths, potting soil, red light and so on. In the picture we see one member of your team in a futuristic space suit planting your team flag. Finally, you use photoshop (or paint) to place the text "Greetings from Mars" on the photo and hand in the result.

You have to hand in a photo.

Group picture

Hand in a picture of your team here. The easiest two credits of the game and you can even do it before 19:00 CET!

You have to hand in a photo.
