You're going to make such a collage of photos. You make the photos yourself ofcourse and your group flag should be in every photo. The 'title' of the first five photos are up to you, but the sixth should be 'what I actually do'. You can choose iScout and Scouting in general as theme for the meme. Put the pictures nicely together and pay some attention to that. You may, if you need it, use applications like photoshop for this very task, for the design/outline only.

Your prototype doesn't have to be cordless. Hand-in a video of max 30 seconds, explaining how it works and that it works. Helping it a little (by paddling) is no problem.

I'm not a robot, or am I?

A lot of websites use a captcha under a form that you'll have to click before you can proceed. The google Captcha asks you if you're not a robot. But what if you are?

<https://www.facebook.com/okdoeiokdoei/videos/1534860863288720/>

This task is to create a 'robot' or a Rube Goldberg machine that clicks the captcha box. If you decide to make a Rube Goldberg machine with its last step to click the button of a mouse, make sure your machine has at least 5 steps.

Find the captcha for example here: <https://www.google.com/recaptcha/api2/demo>

Pimp my ride

You've always wanted a cool sports car, but the thing you could afford was a little too old and small car. No problem, let's make your car look more impressive: https://www.vice.com/en_us/article/4wbbmq/slapdash-supercars-324. Upgrade your not-sports car with a spoiler, air inlets and make it look lower. Only use cardboard and take a picture of the result.

Haka

When the national rugby team of New Zealand plays, they start with a Haka:

To impress your opponents, perform a haka yourself. Make a video of it of 30 seconds max. At least 5 people perform the haka, dressed black off course. Instructions can be found here:

Balloons

Let's say you bought balloons for a party, but you couldn't resist inflating them all before you went to the party. You made a mistake there as all filled balloons have to be transported in a car now. Fill-up a car with balloons, the driver is still behind the wheel. Hand-in a picture of the result.

Driving with a car filled with balloons is not a good idea, don't do that!

We can still see a spot of sunscreen on your nose as well.

You have to hand in a photo.

Fire pit

Scouting may not lack a fire. To ensure that the garden tiles don't get damaged, we always use a fire pit. That's why you're going to make such a fire pit. Make a wooden fire pit of a common size. On legs of course. See the photo for inspiration. <http://os01.iscoutgame.com/game-2018/firepit.png>

You have to hand in a photo.

The scouting museum

You have to hand in a photo collage.

throw out the window

Last years iScout Teams threw a lot of things out of the window. We wanted to skip the task, but got a lot of requests to not skip it. So, here it is.

Most of the years, you just had to drop something. This year we do something different. Slide down a couch or other piece of big furniture from the first or second floor (British

style: <http://os01.iscoutgame.com/game-2018/floorcount.jpg>) like this:

<https://www.youtube.com/watch?v=cAuNCNMp0Go>

Hand-in your video of max 30 seconds. We would like to have a clear view on what happens so pay attention to lighting if it's already dark outside!
